Intermec Attains Gold Certified Partner Status in Microsoft Partner Program

June, 2006 – Intermec Inc. today announced it has attained Gold Certified Partner status in the Microsoft Partner Program, recognising Intermec's expertise and impact in the technology marketplace. As a Gold Certified Partner, Intermec has demonstrated expertise with Microsoft technologies and a proven ability to meet customers' requirements. Microsoft Gold Certified Partners receive a rich set of benefits, including access, training and support, giving them a competitive advantage in the channel.

Intermec develops, manufactures and integrates technologies that identify, track and manage supply chain assets. Core technologies include RFID, mobile computing and data collection systems, bar code printers and label media. The company's products and services are used by customers in many industries worldwide to improve the productivity, quality and responsiveness of business operations.

"Customers are looking for partner companies that can bridge the gap between their business demands and technology capabilities. They need to trust in someone who can act as an expert adviser for their long-term strategic technology plans." said Allison Watson, vice president of the Worldwide Partner Sales and Marketing Group at Microsoft Corp. "Today, Microsoft recognises Intermec as a new Gold Certified Partner for demonstrating its expertise in providing customer satisfaction using Microsoft products and technology."

The Microsoft Partner Program was launched in October 2003 and represents Microsoft's ongoing commitment to the success of partners worldwide. The program offers a single, integrated partnering framework that recognises partner expertise, rewards the total impact that partners have in the technology marketplace, and delivers more value to help partners' businesses be successful.
