### **The Motorola AP650 now available from Gamma Solutions**

Melbourne January 19<sup>th</sup> 2012 – Gamma Solutions a leading supplier of advanced data collection systems today announced that they will be adding the Motorola AP650 access point to there range of wireless infrastructure equipment.

The Motorola AP650 is a thin multipurpose access point designed to lower the cost of deploying and operating a secure and reliable 802.11n wireless network. AP650 has a powerful 24dBm radio to increase coverage, performance and obstruction penetration while receiver sensitivity has been increased proportionally so users have an increased ability to maintain high performance access through thick doors and walls.

Used in conjunction with a Motorola wireless controller the AP650 requires no configuration or manual firmware maintenance – the controller discovers the access point on the network and automatically downloads all configuration parameters and firmware. This greatly reduces the installation, maintenance and troubleshooting costs associated with the Motorola AP650.

“One of the great benefits of the Motorola AP650 is that when it senses weak or failing signals it securely moves mobile users to alternate access points and automatically boosts the power signal unit the RF holes are covered” says Stephen Lakey, sales executive for Gamma Solutions, “This enables uninterrupted coverage for all mobile users which increases productivity and reduces downtime of waiting to be reconnected to the network”

### **About Gamma Solutions**

Gamma Solutions Pty Ltd ([www.gammasolutions.com](http://www.gammasolutions.com)) is an Australian owned company, based in Melbourne, with offices in Sydney, Brisbane, Adelaide and Perth. Founded in 1992, the company provides all the components of a mobile computing, RFID and data collection systems such as portable terminals, barcode scanners, barcode printers, wireless networks, middleware software and implementation services. Gamma Solutions is an Intermec Honour partner and IPSP, a Cisco Select partner, Zebra Partnersfirst, Datalogic reseller, Datamax-O’Neil partner and authorised repair centre, Psion Platinum VAR partner, Motorola authorised reseller and an LXE authorised partner and authorised repair centre. Gamma Solutions is a company committed to providing quality, practical and flexible solutions to meet the needs of its customers
