The i.roc® Ci70 -EX from ecom instruments in conjunction with Intermec.

Melbourne April 3rd 2013, Gamma Solutions introduces the i.roc® Ci70 -Ex from ecom instruments in conjunction with Intermec. A PDA for mobile workers in ex-areas. The i.roc® Ci70 -Ex mobile computer has been designed to be ex-safe in Zone 1 and 2 ex-areas. It uses the Windows Mobile 6.5 operating system and is the only device on the market to support all WLAN standards (IEEE 802.11 a, b, g and n).

The First mobile computer designed to be ex-safe from scratch. The i.roc® Ci70 -Ex combines a power-saving processor for long battery performances with all current WLAN standards for rapid and secure data transmissions as well as UMTS support within a single device. The explosion-prevention experts at ecom instruments, in conjunction with Intermec – one of the market leaders for ruggedized PDAs – have now developed a platform that right from the outset of its conception meets the demands set out in the requirements for ex-certification.

In this, the new PDA is unique because mobile devices for ex-areas have to date only been made safe for use in hazardous environments by retroactively adapting them to comply with current standards. Developing a device “from scratch” also allows the latest technologies – for instance, support for current WLAN standards and UMTS – to be built in from the start. And any required peripherals, such as RFID readers, bar-code scanners and HART modems, can also now be integrated into the mobile ex-computer which means that it is also possible to produce generally ergonomic designs.

About Gamma Solutions

Gamma Solutions Pty Ltd (www.gammasolutions.com) is an Australian owned company, based in Melbourne, with offices in Sydney, Brisbane, Adelaide and Perth. Founded in 1992, the company provides all the components of mobile computing, RFID and data collection systems such as portable terminals, barcode scanners, barcode printers and wireless networks; as well as professional services including systems analysis, design and implementation, middleware software and training. Gamma Solutions is committed to providing the highest level of customer service by providing good and services Australia wide as well as in New Zealand. For more information visit
