Gamma Solutions now selling the Datalogic PowerScan PM9500

Melbourne June 2, 2014 Gamma Solutions today announced it has added the latest Datalogic PowerScan to the extensive range of barcode scanners already on offer.

The Datalogic PowerScan PM9500 area imager is a ruggedised cordless reader suitable for all demanding applications. It is equipped with a new generation of the Datalogic STAR Cordless System™ - the proprietary radio from Datalogic - which further improves the outstanding features of versatility, ease-of-use and radio range.

The PM9500 series offers a model with an optional display and 4 configurable keys to increase the interactivity between the host and the user allowing a two-way exchange of information for more reliable and effective communications.

"The long lasting battery life guarantees more than one shift of intensive scanning, a great benefit to our customers who can not afford any downtime during their busy operations" say Nicholas Alexiou, Senior Business Development Manager at Gamma Solutions

Handle shape, well-balanced weight and an intuitive aiming system allows high first-pass reading rates while reducing unnatural wrist movements for improved ergonomics and user comfort. The PowerScan 9500 area imagers use a soft-pulsed white illumination light that is very gentle on the eyes and less troublesome to the operator during scan-intensive applications.

About Gamma Solutions

Gamma Solutions Pty Ltd (www.gammasolutions.com) is an Australian owned company, based in Melbourne, with offices in Sydney, Brisbane, Adelaide and Perth. Founded in 1992, the company provides all the components of mobile computing, RFID and data collection systems such as portable terminals, barcode scanners, barcode printers and wireless networks; as well as professional services including systems analysis, design and implementation, middleware software and training.
