HONEYWELL DOLPHIN 6110 MOBILE COMPUTER

Melbourne October 22nd 2013, Gamma Solutions in partnership with Honeywell Scanning & Mobility's is pleased to announce the Honeywell Dolphin 6110 Mobile Computer. Purpose built for in-premise applications, the Honeywell Dolphin 6110 provides mobile workers with the tools needed to streamline tasks, improve productivity, and maximize investment protection.

Honeywell's Dolphin® 6110 is a stylish and reliable mobile computer that provides advanced data collection and real-time wireless communication for in-premise applications including price lookup/audits, inventory management, customer assistance, and merchandising.

Designed with ergonomics in mind, this pocket-sized mobile computer features an angled imager that allows users to view the screen while scanning a bar code. Despite its stylish exterior, the Honeywell Dolphin 6110 was built to withstand harsh conditions. This IP54-rated device can endure exposure to dust, dirt and moisture, as well as accidental drops from distances as high as 1.2 meters. The high-performing Dolphin 6110 can sustain up to 500 tumbles from 1 meter, ensuring reliability for years to come.

Integrated 802.11 a/b/g/n wireless connectivity provides users with access to critical data throughout the enterprise. A long-lasting battery minimizes the need to change the battery during an eight-hour shift, even in wireless, scan-intensive environments. Advanced security protocols ensure data accuracy and security. Users can also make phone calls using Voice over Internet Protocol (VoIP) technology, eliminating the need to carry additional devices. Powered by Adaptus® 6.0, the 6110 with the imager option delivers the broadest suite of advanced data capture capabilities, including linear and 2D bar code scanning, digital image capture, and intelligent signature capture, allowing users to increase efficiency and improve customer service.

About Gamma Solutions

Gamma Solutions Pty Ltd (www.gammasolutions.com) is an Australian owned company, based in Melbourne, with offices in Sydney, Brisbane, Adelaide and Perth. Founded in 1992, the company provides all the components of mobile computing, RFID and data collection systems such as portable terminals, barcode scanners, barcode printers and wireless networks; as well as professional services including systems analysis, design and implementation, middleware software and training.
