***HONEYWELL DOLPHIN 70e BLACK ENTERPRISE HYBRID DEVICE (EHD)***

Melbourne September 11<sup>th</sup> 2013, Gamma Solutions in partnership with Honeywell Scanning & Mobility's is pleased to announce the official launch of the Dolphin 70e Black enterprise hybrid device (EHD) in Australia & New Zealand.

The Honeywell Dolphin™ 70e, Honeywell's latest enterprise hybrid device (EHD), successfully marries the size, style and usability of a consumer device with the reliability and longevity of a traditional rugged hand-held. Engineered with premium materials and clean lines, the units form factor elegantly lends itself to personal device usage while also meeting the challenges found in the unpredictable surroundings of the mobile enterprise.

Along with the aesthetic details, the Honeywell Dolphin 70e was also built to deliver years of reliable operation. Incorporating Corning® Gorilla® Glass, the device's touch screen is exceptionally resistant to damage. The housing protects against dust and water and for added versatility and can be operated in extreme temperatures as low as -20° C (-4°F) minimizing downtime associated with these conditions.

Businesses can also capitalize on the flexible platform supplied by the Honeywell Dolphin 70e which can be customized according to use case with Microsoft® Windows® Embedded Handheld or Google® Android™ operating systems. The crystal clear 4.3" display can be seen in virtually any lighting condition, including outdoors, and is equipped with the same capacitive touch screen technology used in advanced smartphones, enabling the use of two-finger gestures for device operation.
