Gamma Solutions Introduces the H-Class high performance printer from Datamax-O'Neil

Melbourne September 29th 2011 – Gamma Solutions a leading supplier of advanced mobile data collection solutions today announced they will be selling the Datamax-O'Neil H-Class high performance industrial printer to complement their already extensive range of printers.

Twice as fast as other printers in its class the Datamax-O'Neil H-Class printer is a rugged and versatile printer suitable for a wide range of industrial applications such as Manufacturing, Food and Beverage package labelling, Transportation and Logistics as well as Pharmaceuticals.

“With the need for organisations to adapt and stay competitive in today’s market the H-Class printer has significant advantages over the competition” says Stephen Lakey, Gamma Solutions sales executive, “Base printers are able to be upgraded with field installable options such as cutters, thermal options and peel and present sensors to ensure organisation do not pay for features they do not need while adding the flexibility to change as their needs do”

H-Class offers a wide range of connectivity options including Ethernet, Parallel, Serial, USB and wireless 802.11 b/g interfaces to meet diverse application requirements and easily integrates onto any network.

There are 12 models of the Datamax-O'Neil H-Class available offering the best value proposition for premium industrial class printers; included in this is the choice of printhead resolution including 203dpi, 300dpi, 406dpi and 600dpi.

Featuring a gear driven design and durable die-cast aluminium frame the H-Class reduces the total cost of ownership with its rugged and reliable performance for 24 x 7 mission critical services.
