Datamax-O'Neil have made the best even better with the release of the I-Class Mark II industrial printer.

Melbourne March 22nd 2012 – Gamma Solutions today announced that Datamax-O'Neil, an industry leader in stationary and portable label and receipt printers, has launched the all-new I-Class Mark II industrial printer.

Based on the highly successful I-Class series the Datamax-O'Neil I-Class Mark II incorporates new features and technology to make it the best in its class for performance and reliability. The I-Class Mark II is designed to outperform any printer in its class with 20% faster print speeds, 44% faster processing whilst being 25% lower in power consumption.

The I-Class Mark II is designed to suit the needs of a wide range of applications including; manufacturing, transportation and logistics, pharmaceuticals as well as the food and beverage industry. It is loaded with standard features not offered by the competition such as a faster processor, larger memory and a wide selection of communication ports.

“The Datamax-O'Neil I-Class Mark II is the ideal printer for shipping and receiving, product identification, labelling and asset tracking applications” says Gamma Solutions’ sales executive Rick Major. “With its field installable options such as cutters and peel and present sensors the Mark II will increase our customers’ productivity levels substantially”.
