### **Gamma Solutions introduce the compact Datamax-O'Neil M-Class Mark II Industrial Printer**

Melbourne September 28<sup>th</sup> 2011 – Gamma Solutions today announced that they will be adding the Datamax-O'Neil M-Class Mark II printer to their extensive range of industrial and portable printers. The Datamax-O'Neil M-Class Mark II industrial printer offers outstanding value to companies who require rugged and reliable printing but have limited space.

The M-Class Mark II industrial printer has a wide range of features which makes it suitable for use in a wide range of fields including Manufacturing, Healthcare, Distribution and Logistics as well as Pharmaceuticals. It has a small form factor which allows it to operate in tight spaces while still being rugged enough to withstand tough environments with its precision die-cast aluminium frame.

With 32% faster performance than the nearest competitor in its class the Datamax-O'Neil M-Class Mark II printer will increase your productivity while field installable upgrade options such as cutters and peel and present sensors cut back on downtime when requirements change.

"Gamma Solutions are excited to be able to offer our customers the Datamax-O'Neil M-Class Mark II printer." says Gamma Solutions' Northern Region Sales Manager Glenn Batten, "One of the major benefits of the M-Class printer is that it can be easily integrated into existing operations. The language emulation programs allow users to seamlessly replace older equipment."
