### **Motorola MC9190-G now available from Gamma Solutions**

Melbourne December 22<sup>nd</sup> 2011 – No matter what type of barcodes you need to scan, whether they are near or far, dirty or even damaged you can count on the Motorola MC9190-G supplied by Gamma Solutions.

With the Motorola MC9190-G's rugged design and hazardous location certificates it can withstand even the harshest environments. Whether your workers are in warehouses, cold storage or on a construction site the MC9190-G is the mobile computer to suit your needs.

The Motorola MC9190-G operates in temperatures ranging from -20°C to +50°C and has an IP rating of IP64 making it one of the most rugged units on the market. The mobile computer has been drop tested to 6ft across the operating temperature range which meets and exceeds MIL-STD 810G.

“The groundbreaking long-range imager in the MC9190-G can scan a barcode as close as 20cm or as far as 9m” say Gamma Solutions National Sales Manager Paul Pleming, “Organisation can now use the one mobile computer for both their near and far scanning requirements which will significantly improve the productivity of their staff”

The screen is a 3.7 inch high resolution backlight colour VGA touch-screen display for greater readability in any lighting conditions – from bright sunlight to total darkness. The screen also automatically rotates to match the orientation of the device to increase the display area as well as powers down when it has not been used for a predetermined length of time in order to save the battery.
