MobiControl v6

Manage, Support & Secure Your Mobile Field-Force

Take Control *of Your Mobile Assets*

Enterprises in today's global marketplace are taking advantage of wireless mobile technology to manage their supply-chain and provide real-time business intelligence to key decision makers. The challenge is to effectively manage, support and secure evolving mobile field forces across diverse network topologies.

Whether you are using consumer based devices for push email or ruggedized devices in the field, MobiControl is the solution of choice for rapid and reliable performance over any network for any size of deployment.

MobiControl - *The Right Choice!*

- **Most Comprehensive Solution on the Market**
- **Award Winning Technology**
- **Advanced Security Features**
- **Extensible Architecture** (*Ten to tens of thousands of devices*)
- **Most Competitively Priced solution on the market**

"Had it not been for MobiControl, we would never have been able to grow our mobile business to the size it is today. While extremely powerful, it is also a simple and practical tool that has been fundamental to our success."

- Nigel Fawkes, AutoRestore, UK.
Field Support Analyst

"The cost associated with Device Management through SOTI is a fraction of the cost of other solutions, while providing twice the feature set. What a pleasant surprise."

- Ben F. Marshall, KCI, USA.
Chief Architect

MobiControl *Completes the Mobility Puzzle*

Automatically deploy software and data in real-time over any network connection.

Full remote control over any network; manage / view file systems & registry of any device.

NEW! Locate and track mobile assets, including speed, location and breadcrumbing.

AD Integration, Device Feature Control, File System Encryption, Browser Lockdown and much more!

Perform scheduled or ad-hoc file / data synchronization.

Track device repair history; identify problem / defective units before warranty expires.

Use standard or custom reports to monitor your mobile operations.

Automatically identify problem areas with advanced Diagnostic and Imaging Tools.

Track hardware and software assets; automatic device grouping based on location, etc.

Fastest Remote Control over any Network!

We Manage Mobility

MobiControl v6

Maximize your Mobile Field-Force

Reduce Total Cost of Ownership

Automate processes to increase productivity, reduce labor costs, and maximize your ROI

Increase Productivity

Minimized downtime, shortened training curves, increased user adoption, reduced support and labor costs and simplified device management.

Reduce Security Risk

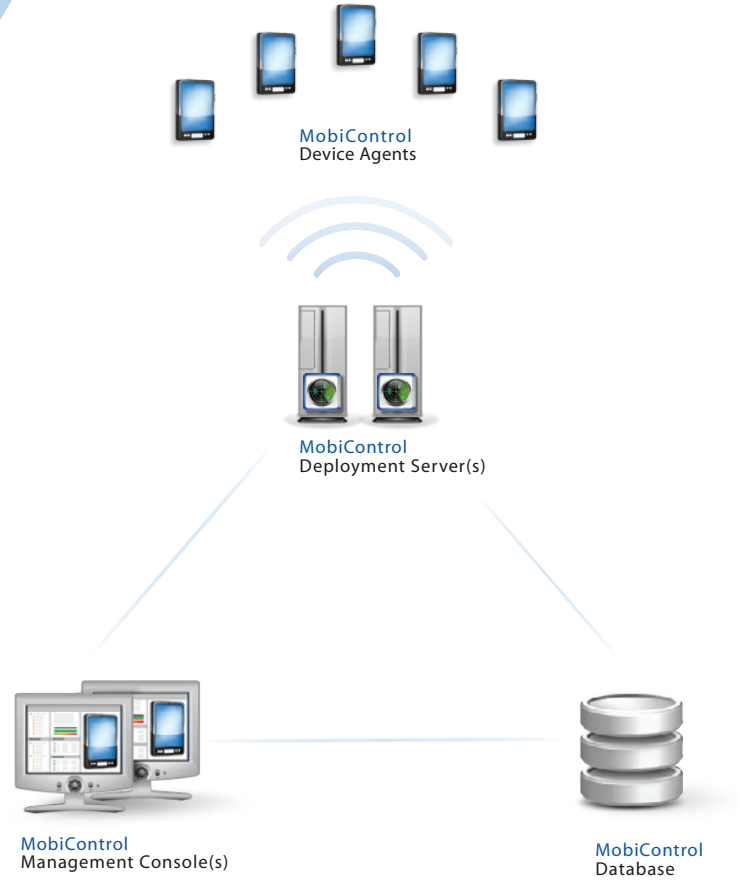
AES-256 full device storage encryption using FIPS 140-2 certified algorithms to protect your sensitive data, Active Directory based user authentication, Application Run Control, Device Lockdown (Kiosk Mode), Hardware Feature Control & much more. Advanced security polices provide administrators with granular control over how mobile devices are used and how data is accessed.

Benefit from Open Standards

Built using open industry standards with no need for proprietary hardware or software.

Protect Your Investment

MobiControl supports all Windows based mobile and desktop computing devices that operate over any wired or wireless network (e.g. WiFi, GPRS, CDMA, EDGE).



System Requirements

Manage any mobile device or computer running any Microsoft mobile or desktop Operating System.

Compatible with all devices/computers running Microsoft Windows CE, Pocket PC, Windows Mobile, Smartphone, Windows XP, or Windows 2000 Operating Systems.

Manage Mobile Deployments Over Any Network Topology

- WiFi or other wireless network
- Low & High bandwidth Cellular Network
  - GPRS, CDMA, EDGE, etc.
- External network outside corporate firewall
- Batch mode/cradle devices

About SOTI Inc.

With more than 75,000 customers around the world, SOTI Inc. is the world's leading provider of mobile device management and security solutions for the Enterprise and Consumer spaces.

Building on its industry acclaimed Remote Control technology, SOTI Inc. has developed several best-selling products, including SOTI MobiControl.
