The versatile MC2100 mobile computer from Motorola.

Melbourne April 5th 2013, Gamma Solutions introduces the Motorola MC2100 Mobile Computer. From the sales floor to the backroom, the Motorola MC2100 Series mobile computer has what it takes to affordably automate the capture of inventory data right at the point of work and at a value price point.

The Motorola MC2100 may be value priced but you get many features normally found in more expensive mobile computers. You can count on best-in-class processing power, from its high performance scan engine that provides super quick barcode scanning.

With a rugged design and superior ergonomics the Motorola MC2100 Series still remains comfortable to hold in one hand. The flexible data capture options and advanced features such as enterprise grade push-to-talk (PTT) capability, centralised management and the ability to create cross-platform, operating system agnostic applications the Motorola MC2100 mobile computer is the perfect choice for those who demand high performance capabilities but are on a limited budget.

About Gamma Solutions
