

PowerScan® 8300

Industrial Handheld Laser Bar Code Reader: Desk and Mobile

At A Glance

"The keypad display option on the PowerScan Mobile allows our employees to interact in real-time with the host system using our wireless network. This feature is usually only available with the 'high-end' mobile computers."

— Business Manager, Warehouse

FEATURES	BENEFITS
Rugged Durability for Industrial Applications	<ul style="list-style-type: none"> • Demonstrated reliability reduces the total cost of ownership • Resists multiple drops, strong shocks and repetitive tumbles • Rubber overmold protects the scanner against shock, abuse, and prevents the scanner from slipping off counters • Ideal for outdoor as well as severe indoor applications like freezers • Recessed reading window and optional display protects against drops and scratches
Superior Reading Performance	<ul style="list-style-type: none"> • Standard and Auto-Range optics available • Standard Range for reading distances from contact up to 1 m / 3.3 ft, the ideal range for all applications in manufacturing. • Auto Range for reading distances from 10 cm / 3.4 in to 10 m / 33 ft, targeted for forklift and warehouse applications. • Built-in multi-interface (RS-232, Wedge, Wand and USB) in all models keeps interface conversion costs to a minimum
Intuitive and Ergonomic Use	<ul style="list-style-type: none"> • User friendly features make the start-up procedure easy even for inexperienced users, reducing start-up time • Automatic bar code family setting "auto learn" and registers the bar code symbology to be decoded • Verifier function provides information regarding code type, number of characters, etc
Reliable Mobility (M8300)	<ul style="list-style-type: none"> • Datalogic cordless STAR® System has proven reliable and flexible • Long lasting Lithium-Ion battery exceeds 60,000 cycles (reading and transmission) guarantying more than one shift of productivity • The Paging Function button on the cradle causes all connected readers to generate a beep sequence for quick identification

Applications

- Work-in-Progress Control
- Warehouse Management
- Shipping and Receiving Control
