Gamma Solutions to sell the ultra-rugged and portable Datamax-O'Neil microFlash family

Melbourne August 23rd 2011 – Gamma Solutions a leading supplier of data capture equipment, have began to sell the portable Datamax-O'Neil microFlash 2te, 4t and 4te. The microFlash family of printers offers the most rugged and reliable performance for field service workers.

The microFlash family can survive frequent drops, extreme vibration, constant jarring and excessive dust. The microFlash 2te is the most rugged 2 inch wireless portable printer on the market; while the 4t and 4te is engineered to withstand even the most punishing portable applications.

“The microFlash family has many different applications which we at Gamma Solutions feel will be of great benefit to organisations specialising in mobile POS, field service and direct store delivery” says Northern Region Sales Manager Glenn Batten, “The 2te, 4t and 4te portable printers can issue receipts to customers, print coupons as well as help with queue busting in stores”

Using a reliable printer means your operation will run smoothly without downtime or hand written receipts. The microFlash family is the most rugged and reliable printer series available with a proven design to keep mobile workers productive and your customers satisfied.

With a standard warranty of 2 years organisations can save money on expensive extended warranties and repairs. As an authorised repair centre Gamma Solutions are able to repair and service Datamax-O'Neil printers under warranty for its customers.

“Having a dedicated repair centre for Datamax-O'Neil printers will ensure that our customer receive the best possible service.” Leo Sfinas National Service Manager of Gamma Solutions says, “It will also cut down on repair times as Gamma Solutions carry a large inventory of spare parts to be able to repair Datamax-O'Neil printers”

The microFlash batteries are included in the purchase price of the printer and can be charged using a vehicle adaptor. By using the intelligent power management and programmable sleep mode employees can extend the battery life.
